

EquityEQ Compliance Use Case

Are you struggling with compliance reporting and seeking an efficient solution?

Look no further than EquityEQ. This innovative platform streamlines the transformation of your lending and deposit data into a centralized hub, saving you time and resources. Say goodbye to labor-intensive processes and embrace a more effective way to manage compliance reporting while crafting a compelling impact story.

Welcome to Your New Data Hub

For many community lenders, the current data landscape is cumbersome and fragmented. EquityEQ emerges as a centralized hub, simplifying data management across your organization. With EquityEQ, you can:

- Consolidate all uploaded loan transaction data into an easily accessible online platform.
- Create customized dashboards effortlessly, adjusting data visibility, user permissions, and external sharing preferences.
- Seamlessly integrate new data fields into existing dashboards.
- Effortlessly filter dashboards to focus on specific programs, loan types, time periods, or geographies served.
- Set and track goals, benchmark performance, and embed or share dashboards for enhanced accessibility.
- Export data in various formats, including PDFs and CSV files.
